

2014 'O' LEVELS

"The teachers are helpful and make sure I understand the content well. The environment is very conducive for learning. The way the lessons are taught is very effective."

Isabelle Kee

"He excelled and attained the highest accolade... and received the Senior Patrician Award! His name will be on the wall of fame in school. From the bottom of our hearts, thank you for helping him and for guiding him"

- Parent of Emmanuel

*Students who were with us for more than 3 years **Students who are with us for less than a year

WHAT OUR STUDENTS SAY

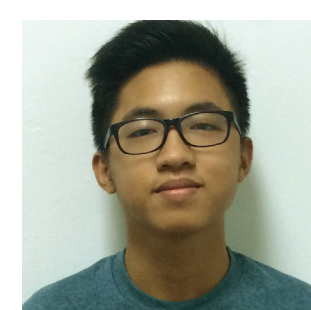

Aedno has guided me since Secondary 3. They enabled me to understand the concepts of A Maths and helped me learn how to tackle hard questions. Everyone in Aedno are friendly and caring. They made the effort to approach me personally to ask about my progress as well as understanding towards particular topics. Aedno helped me greatly through the 'O' Levels period and ensured that I was ready for the exams. I am thankful for Aedno's help throughout Secondary 4!

- Charlene Tan Jia Ying

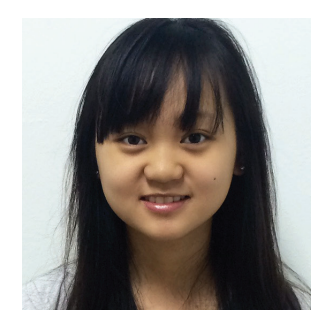

Aedno helped in my constant revision of the subjects I took in the Studio. The teachers are friendly and well-equipped. I noticed a marked improvement in my grades and attitude towards learning after being coached by the high-spirited and tenacious teachers.

- Isabelle Soh

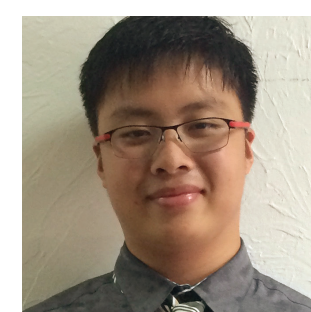

Fun, interesting. The lessons are productive!

- Lye Jimin

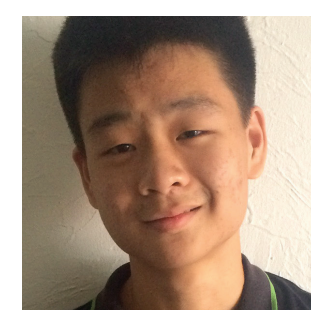

I have been taught by Ms Pei Yih, Mr Kumar and Mr Joseph. Ms Pei Yih has helped me to improve a lot in my sciences from a fail to a distinction. Because of the improvement, I started to enjoy Chemistry and Physics lessons more. Mr Joseph has always been able to answer all my doubts and is a reliable Physics teacher whom I can count on. Mr Kumar guided me through Mathematics and can be rather strict at times, reminding and emphasizing the importance of getting the right answers to score. Aedno Learning Studio is a conducive place where I learnt to self-study and ask when in doubt.

- Amanda Goh

Aedno really helped to guide me towards the grades I have achieved. The teachers were helpful and were there to answer my questions.

- Ryan Peter Tan
St Joseph institution international
IGCSE 'O' Levels

Aedno truly helped me improve in the subjects in which I received lessons on. The teachers were able to identify the weakpoints that were primarily hindering my progress and were able to remove those barriers. Their friendliness is a big plus.

- Zhuo Yuan Qin
